SKILLS

- Android App Development
- Java
- C++
- Data Structures
- Python
- HTML
- CSS
- JavaScript
- Object-Oriented Programming
- Database (SQL, Firestore, SQLite)

EDUCATION

BACHELOR OF TECHNOLOGY

ICT - Marwadi University

2022 - 2025 (Present)

8.3 CGPA

HIGH SCHOOL DIPLOMA

ICT - Marwadi University

2019 - 2022

9.56 CGPA (Gold Medalist)

SECONDARY SCHOOL

Shree Chanakya Vidhya Sankul

2018 - 2019

77.33 % (93.66 PR)

PROJECTS

- **Attendance App**
 - In this project I have developed two Android Apps.
 - One for teacher and second one is for student.
 - Teacher can manage different subjects, manage attendance of students, manage quiz.
 - Student can see their attendance and give quiz.
 - Technology : Android (Java), XML, OOP
 - Database : Google Firebase Firestore (JSON based)
- **Rainbow Graph Game**
 - In this project I have developed one Android game.
 - This app having 20 levels.
 - In each level user can color graph based on concept of Proper coloring and Harmonious coloring and check whether they right or wrong.
 - Technology : Android (Java), XML, OOP
- **Sign Language to Text & Speech Converter**
 - In this project we implement one python model for converting sign language to text and speech.
 - Collected real world dataset and trained model.
 - Used LSTM for training and got 91% accuracy.
- **Mini Projects**
 - Calculator (Android App)
 - Infix to Postfix (Android App)
 - Modulation visualizer (Android App)
 - Sign Language to Text & Speech Converter (Python)
 - Tic-Tac-Toe game (Python kivy)

ACHIEVEMENTS

- 5 star in problem solving (HackerRank)
- Gold Medalist in High School Diploma

CERTIFICATES

- C for Everyone: Programming Fundamentals - Coursera
- Programming for Everybody (Getting Started with Python) - Coursera
- Python Data Structures - Coursera
- Python Classes and Inheritance - Coursera
- Learning Java (LinkedIn)
- NDG Linux Unhatc-certificate (Cisco Academy)
